Columbia, SC 29210

Re: Insurance requirements for Interconnection Standard.

Dear Ms. Boyd:

Duke Energy Carolinas, LLC ("DEC") requests an administrative order be issued pertaining to Order No. 2016-381. Order No. 2016-381 limited the Commission's ruling to the specific set of facts involved in that proceeding. In order for the Company to apply the Interconnection Standard's liability provision in a consistent and non-discriminatory manner for future customers, DEC seeks an administrative order that provides that an insurance policy that includes an annual aggregate limit for liability coverage that is equivalent to Mr. Hopkins' policy complies with the Interconnection Standard's liability provisions. Specifically, DEC seeks an administrative order that an insurance policy with \$100,000 per occurrence (or more) coverage with an aggregate annual limit of a minimum of \$900,000 complies with the Interconnection Standard.

Yours truly,

Frank R. Ellerbe, III
